RELIABLE. AMERICAN. MAKERS.

Welcome to Hubbardton Forge.

We are pleased to present our new 2023 Product Catalog. This book represents what we do here in Castleton, VT, every day. The Hubbardton Forge difference is seen on every page.

What’s different about Hubbardton Forge? Where do I begin?

First, Design. It’s in our DNA, and our design process is one that fills me with wonder and great pride. It is so different from the sanitized and long-distance process that many others use. Emailed CADs and nameless factory workers are not our way.

At Hubbardton Forge, our process is truly collaborative. Our design team is exceptional. They’ve outdone themselves with design & technology, design & artisanry, and design & sustainable manufacturing. The collaborative design process at Hubbardton is unlike any I have experienced elsewhere. It encompasses designers, engineers, finish specialists, forgers, welders, and many other craftspeople. Each one adds something to the process, and each one has ownership of the final product. We talk about the “Pride of the Forge”. It’s real. And, we live it every day. There’s something about making a product for someone or for a specific space by hand, versus assembly line production that creates a level of pride and care that cannot be matched.

Second, our “we can do it” approach to our business and customers. We are small, but we are mighty. If a customer needs something made larger or smaller, or wider or taller, we can do that. If they want a custom finish or a different shade fabric, we can do that. We want to do all that and more for our customers. We believe we are in partnership with our customers, and we strive always to give you exactly what you want, what you envision; and we do it quickly while always maintaining beauty and quality in mind.

Lastly, and honestly, I could go on and on, but I think Hubbardton Forge is different because we try to do everything while considering our environment and our community. Everything we do is with an eye toward No-Waste Manufacturing, which has been a hallmark of Hubbardton Forge since we opened nearly 50 years ago. To push design forward, while protecting the environment we live in, takes the collaboration of design, engineering, and manufacturing teams. We make products one at a time, in Vermont, and deliver in 3 to 4 weeks because our customers shouldn’t have to wait a long time to get exceptional product that is made in Vermont. Being a good corporate citizen is important to our local community and the wider world, and we take it seriously.

We thank you for your support.
 Maria L. Mullen
 CEO

HUBBARDTON FORGE.

PARTNERSHIPS

We work with local partners and artisans who provide many of the components used in making our products. This allows us a level of quality that is unparalleled. Our partners work with us to develop the exact pieces, whether it be LED technology or chiseled slate, maple wood or handcrafted leather, handblown glass or linen shades. Involving our local partners throughout the process ensures the best possible end product. Local partnerships also allow us to ensure reliability in our deliveries, helping you keep your promises to clients.

FINISHES

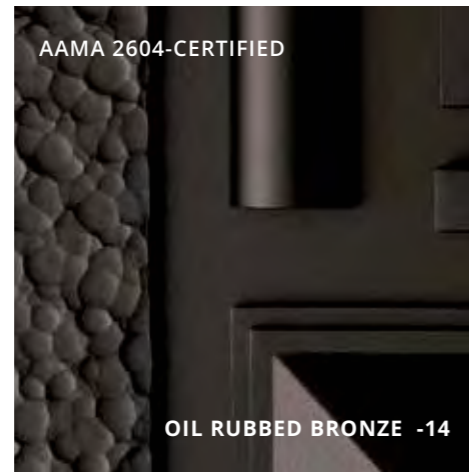

● = TRANSLUCENT
○ = OPAQUE

COASTAL OUTDOOR FINISHES

Hubbardton Forge offers some of the most robust, environmentally-friendly finishes available for exterior lighting fixtures, and continuously works to improve durability with new formulations that are rigorously tested.

The American Architectural Manufacturers Association, who sets the standards for coating performance on architectural applications, has recently designated four of our Coastal Outdoor Finishes (-14, -75, -77, -78) as AAMA 2604-certified, meeting the highest standard in durable, weather resistant finishes available. They are corrosion-resistant and color-fast, with significant protection against harmful UV rays. These coatings deliver exceptional hardness and scratch resistance for enhanced performance in seacoast environments. AAMA 2604-rated finishes, also known as "Super Durable Polyester powders", are the same quality and standard that is used on aluminum-clad buildings. Why is this important? So that your exterior lighting fixtures remain not just beautiful, but protected, for years to come. Need LEED credits? These powder coat finishes emit zero-VOCs and can contribute toward your LEED certification, according to the US Green Building Council.

We offer a Lifetime Limited Warranty on ALL of our Coastal Outdoor Finishes, unless you are 10 miles or less from a seacoast, in which case we offer a 5-year warranty.

CUSTOM FINISHES

Have a design challenge? Let us help you solve it. Looking for a custom finish color? Talk with us.

Our in-house customs team can work with you to achieve your goals. If you love a fixture you see, but need a specific finish color for your palette, just use the RAL color chart, and we can create lighting fixtures to match your selected RAL color.

RAL 5003 Dark Sapphire Blue

Modular Scalable Lighting

Longer, shorter, wider...We can do that! The customizable nature of the Abacus is endless. Either side of a headboard, a 30' space divider with 15' ceilings, above a 10' long island, or over a dining table...the Abacus is as versatile as it gets. Custom options are available to accommodate specific applications.

LED TECHNOLOGY

Glass globes are individually lit via a frosted LED tube, powered by low-voltage cables.

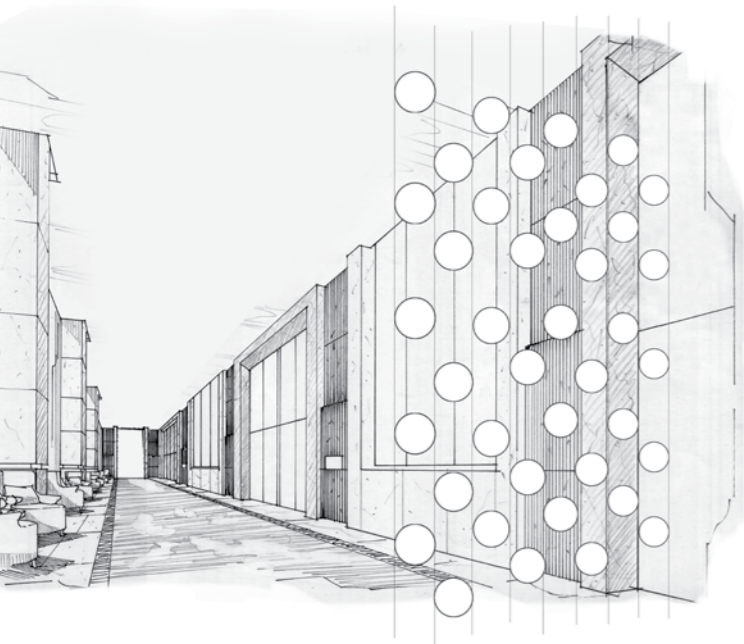

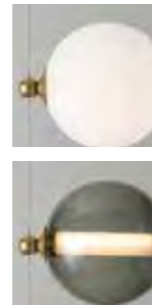

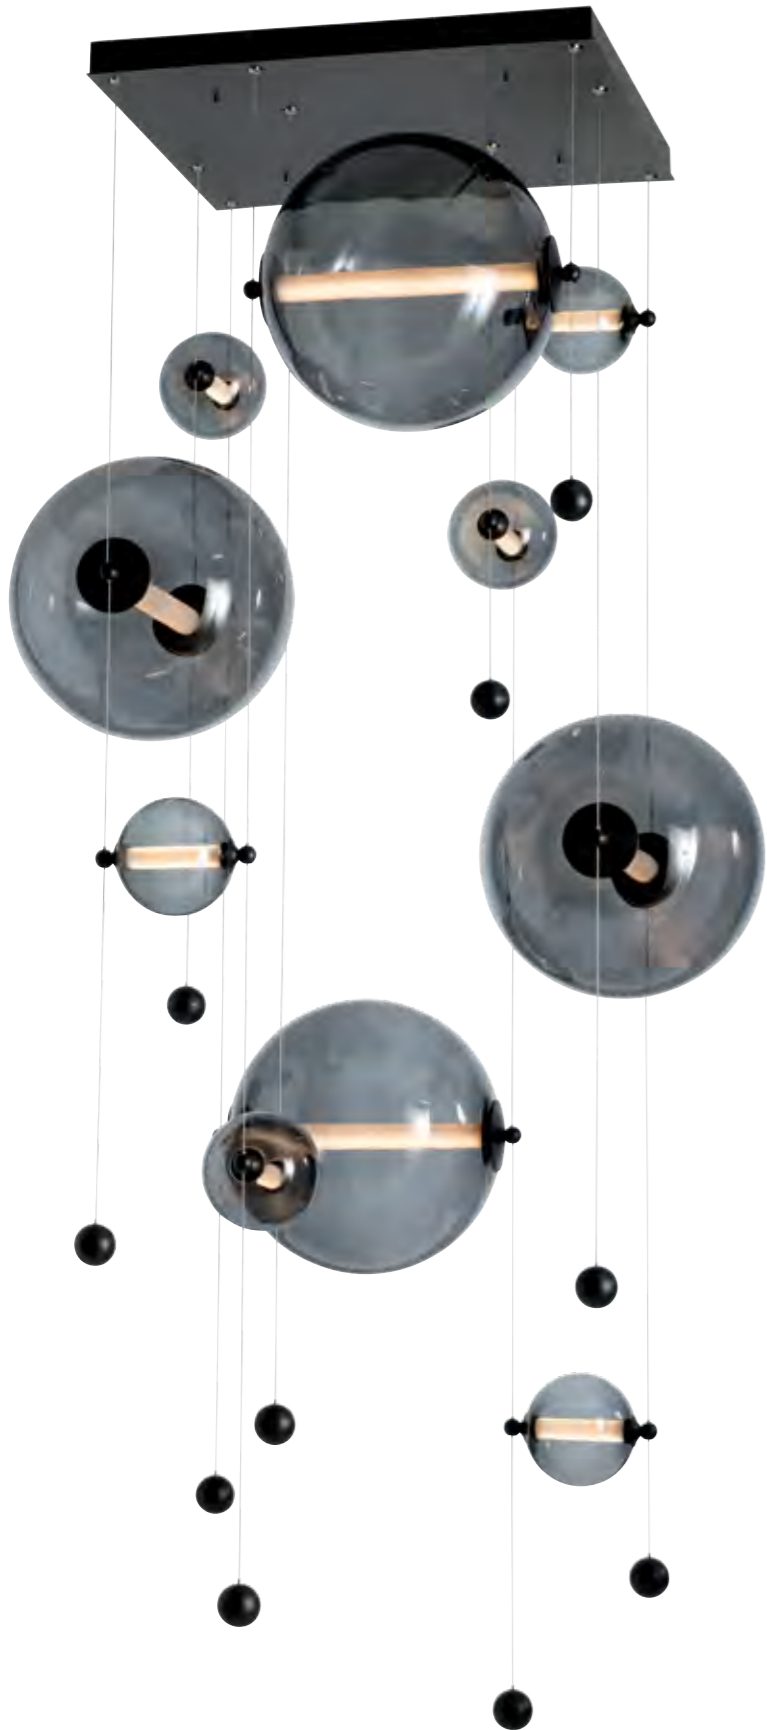

CUSTOM OPTIONS

Working with local Vermont artisans, we can create custom colors and shapes to suit any design needs.

ADJUSTABLE

True to its namesake, the Abacus moves up and down its cable "rails" by virtue of tiny grippers on each side that, when squeezed, free the globe to slide and stop exactly where you want to position it.

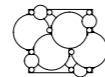

GLASS COLOR SELECTION
 Glass globes are offered in two standard colors (Opal or Cool Grey). A variety of hand-blown, artisanal glass globes are additionally available as custom options for your Abacus.

ABACUS 10-LIGHT SQUARE LED PENDANT - 139051
 60"-100" OAH x 35.5" w x 27.2" d - 24" sq canopy - 71.6 lbs

GATSBY

LED TECHNOLOGY

Faceted crystal elements are individually lit via a frosted LED tube, powered by low-voltage cables.

CUSTOM OPTIONS

Want additional stunning Crystal+LED components for your pendant?
You can do that!

ADJUSTABLE

The Gatsby crystal moves up and down its cable "rails" by virtue of tiny grippers on each side that, when squeezed, free the globe to slide and stop exactly where you want to position it.

NEW GATSBY 3-LIGHT 2-CABLE LED PENDANT - 139058

22-100" OAH x 9.2" dia - 8.8" OD canopy - 15.5 lbs
600 EST. DELIVERED LUMENS, (3) 3W, 3000K CCT, 90 CRI,
120-277V INPUT, DIMMING: ELV, TRIAC 0-10

*Note: Canopy can will always be finished in -10 Black
Crystal modules are always in -85 finish*

LIBRA

Adjustable height cable-hung statement LED pendant featuring ribbed glass cylinders with integrated LED arrays suspended from a canopy. Each glass cylinder and LED array may be individually height-adjusted. Additional glass cylinders and LED arrays may be purchased individually if desired.

LED TECHNOLOGY

Libra modules are individually lit via a frosted LED tube, powered by low-voltage cables.

CUSTOM OPTIONS

Libra fixtures are customizable. Should you wish to add to the standard configuration, additional cylinder/LED modules are available in 7.6" and 15.9" options.

ADJUSTABLE

Libra modules move up and down the cable "rails" by virtue of tiny grippers on each side that, when squeezed, free the globe to slide and stop exactly where you want to position it.

LIBRA 10-LIGHT LED PENDANT - 139100

Multi-Port Systems

A collection of highly-customizable multi-port designs feature cascading light and are suited to a variety of spaces. From dramatic stairwells to foyers and reception areas, to dining and more, these multi-ports feature pendants that may be individually aligned or staggered at desired lengths to customize the design. With canopies that can easily be raised or lowered via cables, installation time is significantly reduced. Easy access to electrical components make these pendants fully field-adjustable. All Hubbardton Forge products are designed, engineered, manufactured and shipped from under-one-roof in Castleton, Vermont.

WHAT SETS APART OUR MULTI-PORTS?

- **Adjustability**
- **Ease of Installation**
- **Accessible Electrical Components**
- **Fully Field-Adjustable**
- **Highly-Customizable**
- **11 Standard Interior Finishes**
- **Handmade, One-at-a-Time by Vermont Artisans**
- **Short Lead Time: 3-4 weeks for Standard Products**

Light-Guide Systems

It began with the design of our Zephyr Pendant, in search of the ability to have light be an integral part of the design itself...to capture the "fluidity" of light.

Working with local, Vermont partners in LED technologies and laser engraving, we developed LED Light-guide systems with proprietary, etched patterns in acrylic that draw the light from end to end. Light travels in a straight line until something refracts, reflects or bends the light through the acrylic, guiding it from LEDs at the end of the form until it escapes any of the thousands of laser-etched points in a proprietary precision matrix on its surface. With our LED light-guides, there is an even distribution of light, vs the "hot spots" often associated with classic LED diodes.

Today, in addition to several free-flowing designs like the Zephyr and Mobius, we offer Linear, Circular and Sconce Light-Guide Platforms for a variety of products. Light-guide platforms may also be customized in length, width and shape to suit custom projects.

All Hubbardton Forge products are handmade, one-at-a-time by Vermont artisans.

WHAT MAKES OUR LED LIGHT-GUIDES UNIQUE?

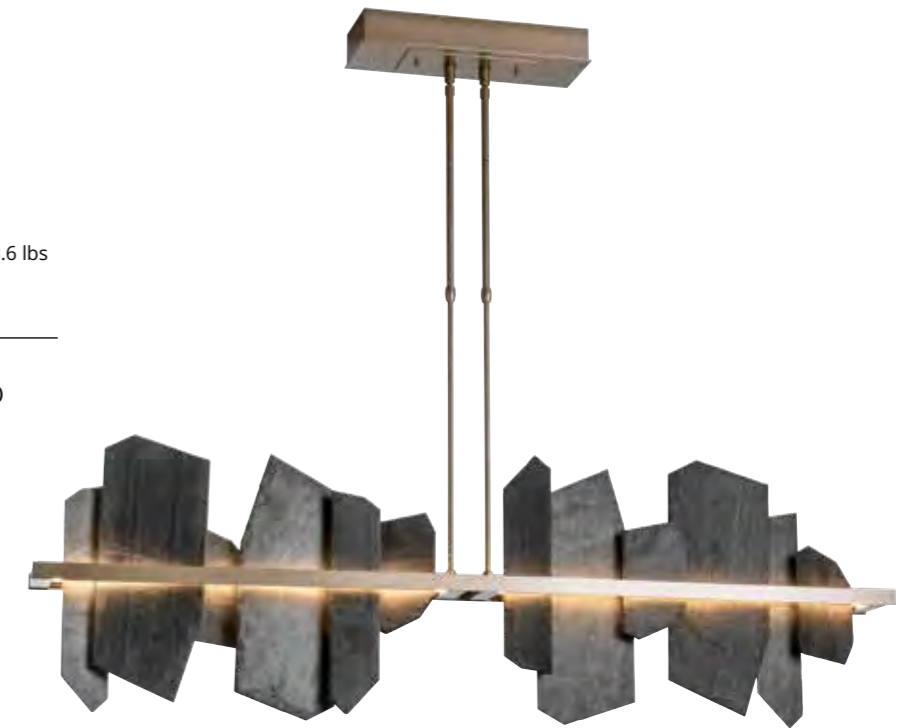

- **Ease of Installation**
- **Even Light Distribution**
- **Locally-sourced LEDs**
- **Accessible Electrical Components**
- **Fully Field-Adjustable**
- **LED component can be easily replaced, if needed**
- **Customizable**
- **11 Standard Interior Finishes**
- **Short Lead Time: 3-4 weeks for Standard Products**

ART + ALCHEMY

by HUBBARDTON FORGE

ärt (the expression or application of human creative skill and imagination) + **alkēmē** (the ancient process of transforming essential base metal into gold)

Art + Alchemy designs are both sculptural and distinctive. They are created in our workroom, a collaborative space where designers and engineers come together. From concept through development and fabrication, this is a space where we throw out the book and think without restrictions. It is a place to let the imagination take us on journeys to create pieces that push the boundaries.

Once the design concept is proven, manufacturing the product using custom tooling proceeds. A choice of 11 standard finishes are available; or we can custom-match any RAL color for you. And, with all of our Prototype & Tooling done on-premise, our team can work with you to customize dimensions and aspects of any product in our Art + Alchemy collection to suit a specific project.
